

WHAT IS A PROTOTYPE?

PROTOTYPE

A **prototype** is an example of your idea. It can be a **drawing** or **small model**.

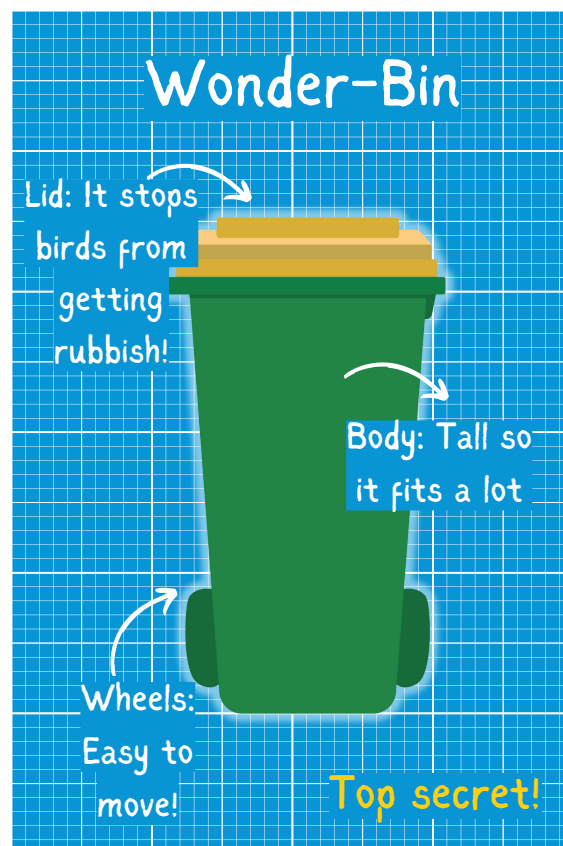

It shows others:

- What your idea will look like
- How your idea will work
- If your idea has any problems to fix

TOP TIPS

- Draw your prototype in different ways
- Explore other ways it may work
- Label the different parts of your prototype so people know what it is and what it does

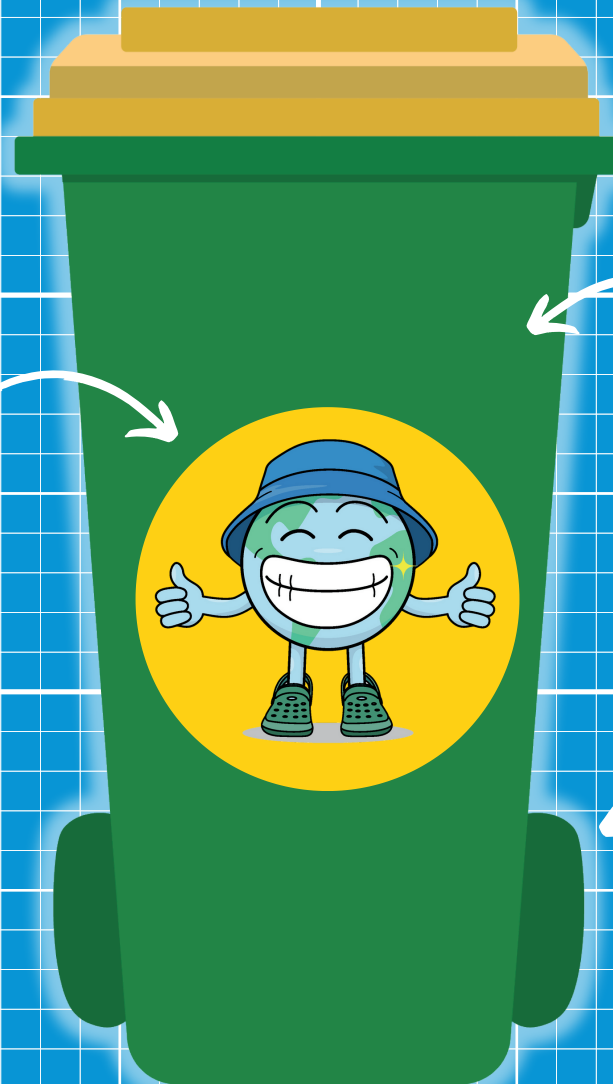

PARKER'S PROTOTYPE

Top secret!

Incredi-Bin

Lid: It stops birds from getting to the rubbish!

Me: That's how you know it's cool

PROTOTYPE

A **prototype** is an example of your idea. It can be a **drawing** or **small model**.

They show others:

- What your idea will look like
- How your idea will work
- If your idea has any problems to fix

Body: Tall so it fits a lot

Wheels: Easy to move!

TOP TIPS

- Draw your prototype in different ways
- Explore other ways it may work
- Label the different parts of your prototype so people know what it is and what it does
