

DEFINE

Use the prompts to help you **define the problem** and what needs to be solved

Name:

Class:

Date:

1. What is your recycling problem?

2. How can you solve this problem? (There may be more than one answer?)

Example: More bins around the school

3. How will these solutions help the problem?

Example: If it is easier to find a bin, people won't litter.

4. Of the ones you wrote about, which the *best* solution? Why is it the best?
